For four days, I have been at one of the longest sandy beaches in the world, Praia do Forte. It is on Brazil's Bahian coast. This beautiful beach is famous for its white sand, swaying palm trees, baby sea turtles and welcoming local people. It is also known as a relaxing fishing destination. I have stayed in an all-inclusive hotel there. The town of Praia do Forte itself is a laid back place with many little restaurants and souvenir shops. I have bought many souvenirs from those shops for my friends. However, I have tasted some local foods and they were really delicious for me. I have enjoyed time on sunny days. So, I have sunbathed and swum all day. It is the first time I have seen the endangered Loggerhead turtles. It was the best vacation in my life I have ever had.

People are destroying forests day by day. They cut down trees to build houses, hotels and factories. Actually, forests are very important for people because they take carbon dioxide in the air and produce oxygen. They also provide shelter and food for many different types of plants and animals. If we don't stop destroying the forests, some animals won't have a house and they will become extinct. The cutting down of trees in a large area is called deforestation and it can also have serious effects. One of these effects is climate change of global warming. Today, it hardly ever rains because of climate change. I hope people will care about these serious effects and stop cutting down the trees. I believe that our planet will be a better place if we take necessary measures to save the forests.

According to the text above, which of the following sentence cannot we say?

- A) Many animal species will become extinct because forests are in danger.
- B) Amount of oxygen will be decreased because of deforestation.
- C) Climate will change and it won't be much rain if we destroy forests.
- D) Some animals can find food in wide green grass fields after deforestation.
